PROFESSIONAL SERIES

OSREN Professional Series consists of surface preparation & protection products which are engineered for professional detailers, factory body & paint technicians and detailing enthusiast. Whether you're looking for paint cleaners, aggressive compounds, nano fine polishes, waxes or sealants, we have it all here.

ORANGE PEEL LEVELING SYSTEM

ROTARY POLISHER

See page 35 for
product information

DENIM SPONGE

See page 30 for
product information

PERFECT FIFTY

FAST CUT COMPOUND

OSREN Perfect Fifty is an aggressive rubbing compound designed to **level orange peel without sanding** for the absolute show car shine. Also engineered to remove tough paint defects such as dust nibs, overspray and P1200 or finer sanding marks.

Cut Level	12/10
Gloss Level	4/10
Part No. & Size	150 (1Kg) 350 (3Kg) 0450 (400g)

N.A.O. ABRASIVES

(NANOMIZED ALUMINIUM OXIDES)

N.A.O. Abrasives uses raw aluminium oxide that is chemically and mechanically refined to be molecularly smaller and sharper than its original size. N.A.O. Abrasives abrade more than standard Aluminium Oxides yet leaving behind an absolute fine finishing.

NAO COMPOUND 46

WATERBASED COMPOUND

NAO Engineered compound designed to eliminate deep swirls, waterstains etching and scratches. Works great even on scratch resistant clears.

Cut Level	9.5/10
Gloss Level	8/10
Part No. & Size	146 (1L) 0346 (300ml)

NAO POLISH 36

WATERBASED POLISH

NAO Engineered polish designed to refine light swirls and holograms. A nano fine polish that eliminates what's left behind by the compounding step.

Cut Level	9/10
Gloss Level	9/10
Part No. & Size	136 (1L) 0336 (300ml)

NAO GLAZE 26

WATERBASED GLAZE

NAO Engineered glaze designed to remove hairline imperfections and blemishes for the absolute glossy finish just before waxing or coating.

Cut Level	2/10
Gloss Level	10/10
Part No. & Size	126 (1L) 0326 (300ml)

STICKY PAINT POLISH

DAP08 DUAL ACTION POLISHER
See page 36 for product information

HEAVY CUTTING FORCE DISC
See page 28 for product information

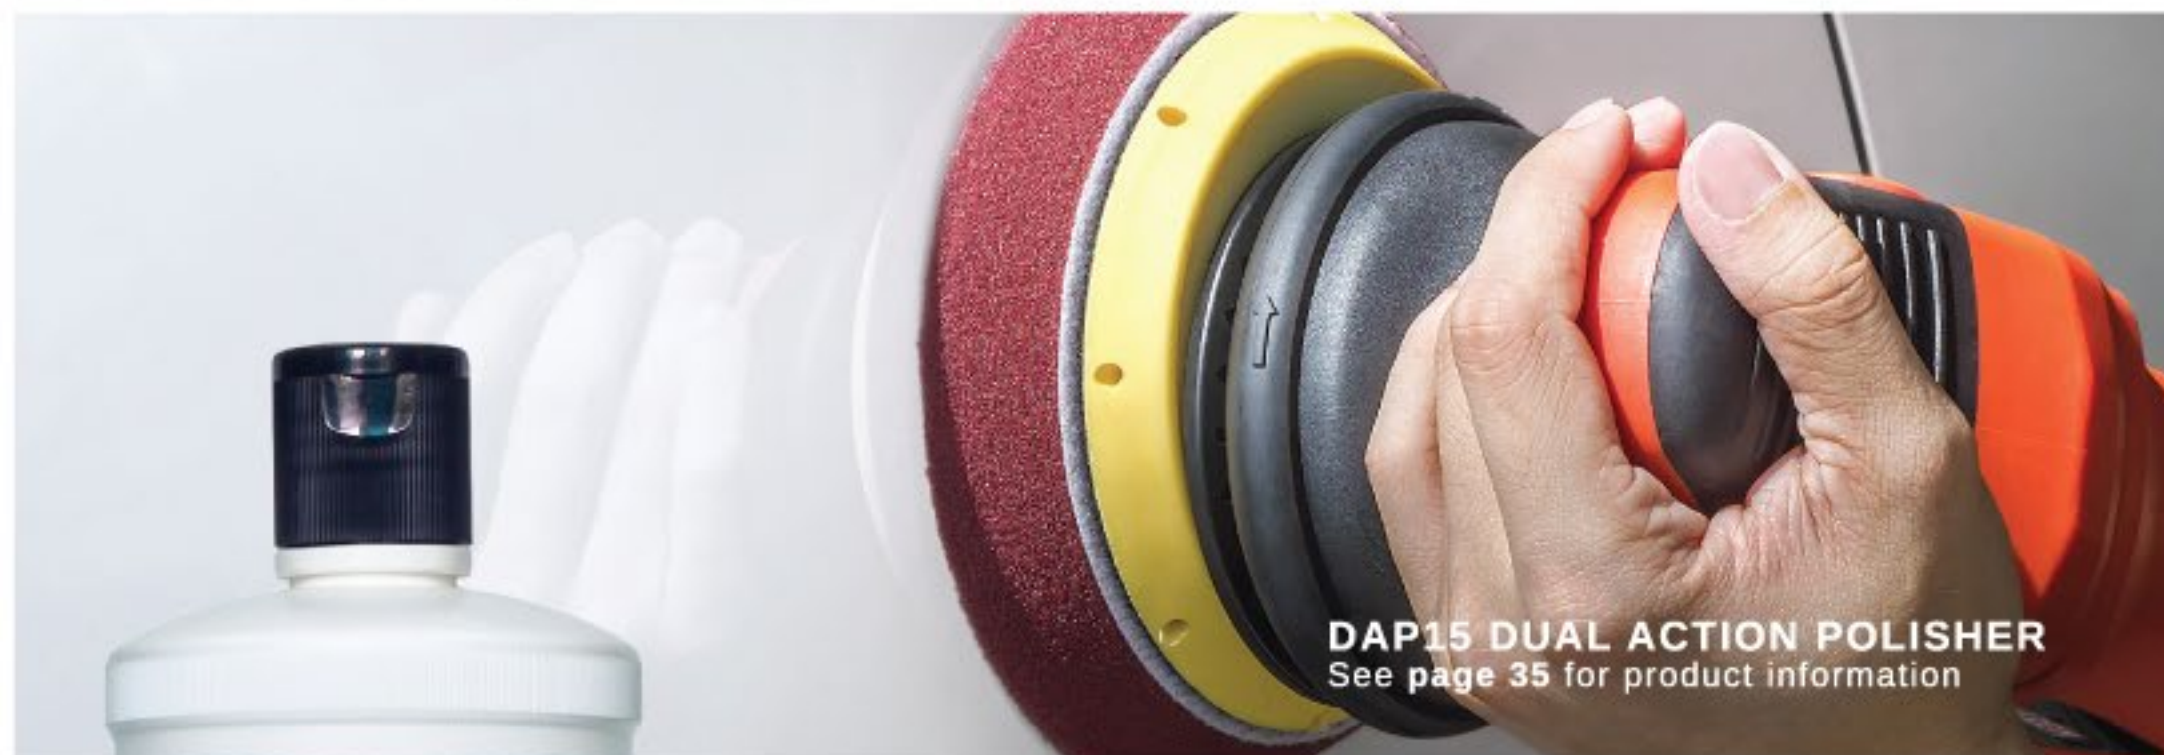

PERFECT CUT 20

LIGHT CUT GLAZE

OSREN's Perfect Cut is a finishing polish/glaze, engineered with fine abrasives and mild water based solvents to produce a flawless finish by eliminating light paint imperfections such as holograms, marring and light scratches. It works exceptionally well on **OEM Soft / Sticky paintworks**.

Cut Level	3/10
Gloss Level	9/10
Part No. & Size	162 (1L) 0362 (300ml)

DAP15 DUAL ACTION POLISHER
See page 35 for product information

PAINT RESTORER 51

ALL-IN-ONE POLISH

OSREN Paint Restorer 51 is a versatile all-in-one polish that's pad dependent. You can pair it with wool pad for relatively aggressive cutting or you can also pair it with a soft foam for mild paint cleaning.

A product that contains micro fine abrasives that removes light swirls and marring. It also contains cleaning solvents that cleans stubborn stains and blemishes, plus it leaves behind a layer of wax that adds to slickness, hydrophobicity and gloss. Get all these in a single step.

Cleaning Power	9/10

RADIANT COAT 12

POLYMER BASED COATING

What's the best way to lock in that swirl free finish that you've spent hours to detail? OSREN Radiant Coat is a Polymer based coating that coats the finish of your car. It not only seals it up but also creates a rich, glossy and hydrophobic layer that keeps the paint looking like new wash after wash.

Cleaning Level	1/10
Gloss Level	12/10
Part No. & Size	112 (1L) 0312 (300ml)

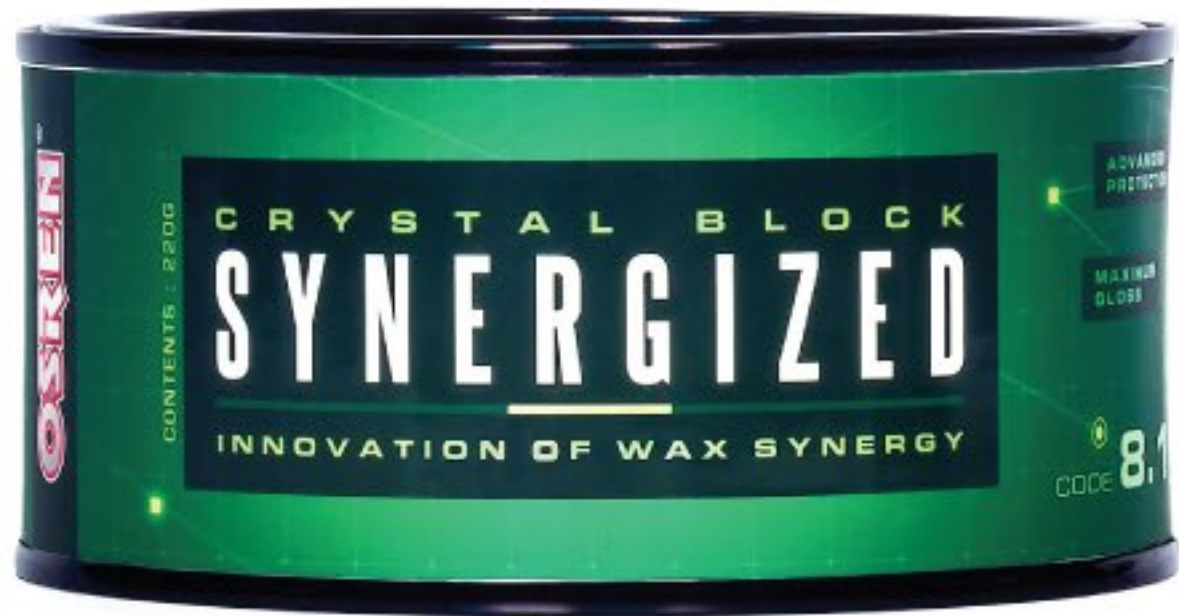

CRYSTAL BLOCK SYNERGIZED

INNOVATION OF WAX SYNERGY

Years of research and prototyping to fuse natural waxes with synthetic resins together has lead us to develop SYNERGIZED, a whole new level of car wax, designed entirely to enhance and protect your car's paintwork. In SYNERGIZED, you'll get a sleek, high-gloss finish from the natural wax while the synthetic resins will give you more protection by prolonging its bond onto the paintwork.

SOLUTIONS

Grab the right liquid for the right job. OSREN Solutions is all about offering the right chemical that easily and safely clean various stains and dress various automotive surfaces.

BUBBLE & WAX

The Key to maintaining that just waxed car is using a good dedicated automotive shampoo. Unlike many household detergents which clean but strip wax and dulls the finish of your car. OSREN's Bubble & Wax car shampoo is a unique blend of cleaning agents and gloss enhancers which gently washes away dirt, grime and traffic film while leaving behind a "wet-look" after-wash shine.

Dilution	up to 1:100
Part No. & Size	400 (4L) 2000 (20L)

NANO WASH

Basic yet ultra concentrated pH neutral car shampoo that does what it does - clean, without harming the paint, coating or waxed finish. OSREN's Nano Wash shampoo is designed to quickly and reliably encapsulate dirt and grime off your vehicle so you can clean without dulling the paint while keeping its original gloss.

Dilution up to **1:400**

Part No. & Size **490 (4L)**

DEGREASER FX

Unlike harsh soda based degreasers which bleaches the surface, OSREN's Degreaser FX is engineered to clean the toughest grease effectively and is easily rinsed off reducing streaking and discoloration. It also comes in a mild citrus fragrance to provide better working environment for technicians and car owners.

Dilution up to **1:10**

Part No. & Size **FX-477 (4L)**
FX-2077 (20L)

TAR SPOTS REMOVER

Tar spots are very adhesive and may etch or stain paint finishes if left untreated. OSREN Tar Spots Remover dissolves road tar on paintwork, plastics and metals easily. Just spray, dissolve and wipe clean. OSREN Tar Spots Remover can also be used to remove glue or adhesive residue, grease and also oil stains.

The background of the entire image is a blue-tinted photograph of several OSREN COATZ product bottles. The bottles are arranged diagonally across the frame. The central bottle is labeled '01A PRE-COATING CLEANER' and '240 ml e'. To its right, a bottle labeled '03 FLUORIPOLYMER PAINTWORK COAT' is partially visible. Below the central bottle, a bottle labeled '05A PAINTWORK COATINGS WATER CLEANER' and '240 ml e' is visible. On the far left, another bottle is partially visible with text including '50 ml e' and 'Made in Japan'.

COATZ

Genesis of Modern Surface Enhancement. OSREN CoatZ provides cutting edge technology products to enhance shine and protection on various automotive surfaces.

COATING APPLICATOR KIT
See page 41 for product information

01 | ABSOLUTE PAINTWORK COATING

Engineered with inorganic glass compositions, otherwise known as silicone dioxides (Sio2), that creates a crystallized coat over the paintwork for the absolute paint enhancement. OSREN Coatz 01 Absolute Paintwork Coating enhances painted surfaces and plastics with a deep rich gloss that lasts extremely long. It also gives a turbo-like water repelling effect due to its intense hydrophobicity, allowing cars to be cleaned and maintain that gallery finish easily.

PADS & BACKING PLATES

Various types of wool, foams, leveling pads and backing plates that caters to all professional detailers and enthusiasts.

LEVELING PADS

DENIM LEVELING FOAM

Denim leveling foam is made of denim which are hard, flat and less pores material to hold most of the abrasives on the surface and level away orange peel as well as other deeper paint defects.

Material	Denim
Attachment	Hook & Loop
Cut Level	12
Part No. & Size	C13150 (150mm) *J90-140DA (140mm) *J90-83 (83mm)

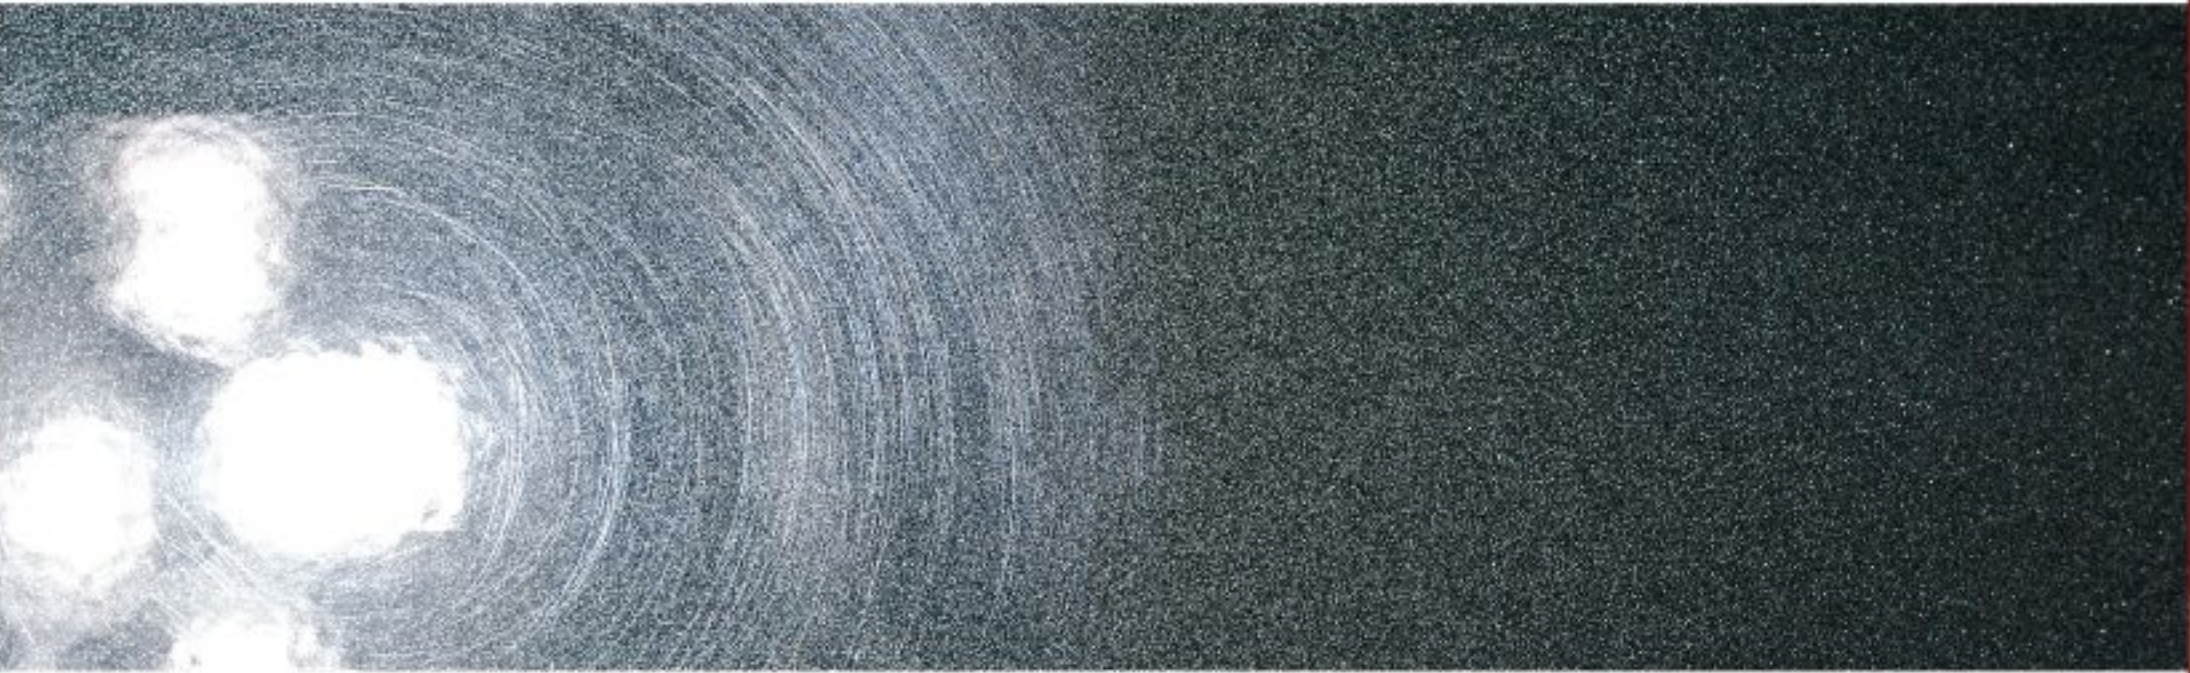

VELVET LEVELING FOAM

Velvet leveling foam is made of corduroy which are similar to denim but slightly softer to cater for soft/sticky OEM paint. The polishing abrasives will be held onto the pad's surface and level away orange peel as well as other deeper defects.

Material	Velvet
Attachment	Hook & Loop
Cut Level	10
Part No. & Size	C23150 (150mm) *V80-140DA (140mm) *V80-83 (83mm)

* = Use with Dual Action Polisher

WOOL PAD

Each strand is tightly twisted and made from high grade wool, allowing the pad to stay at a consistent level of aggression for longer operation.

Material	4Ply 100% Twisted Wool
Attachment	Hook & Loop
Cut Level	8
Part No. & Size	41-125 (190mm) 41-125A (165mm) 41-003 (75mm)

FOAMED WOOL PAD

Cuts like wool but finishes like foam. It is made of nanofoam process which encapsulates the base of the lambswool fibers with microscopic polyfoam particles, allowing it to aggressively removes swirls yet leaving a lustrous finish with no hazing.

Material	Purple Synthetic Wool
Attachment	Hook & Loop
Cut Level	7
Part No. & Size	58-4265 (165mm) 58-4255-1 (140mm) 58-3235-1 (90mm)

ROTARY FOAM PADS

CUTTING FOAM

Coarse reticulated foam used for compounding and paint cleaning to remove oxidations, stubborn stains and scratches.

<i>Color</i>	Maroon
<i>Attachment</i>	Hook & Loop
<i>Cut Level</i>	6
<i>Part No. & Size</i>	C52170 (170mm) C52150 (150mm) C51090 (95mm) C52060 (60mm)

POLISHING FOAM

Medium non-reticulated dense foam used for polishing to remove machine swirls and other moderate paint defects.

<i>Color</i>	Navy
<i>Attachment</i>	Hook & Loop
<i>Cut Level</i>	5
<i>Part No. & Size</i>	C62150 (150mm)

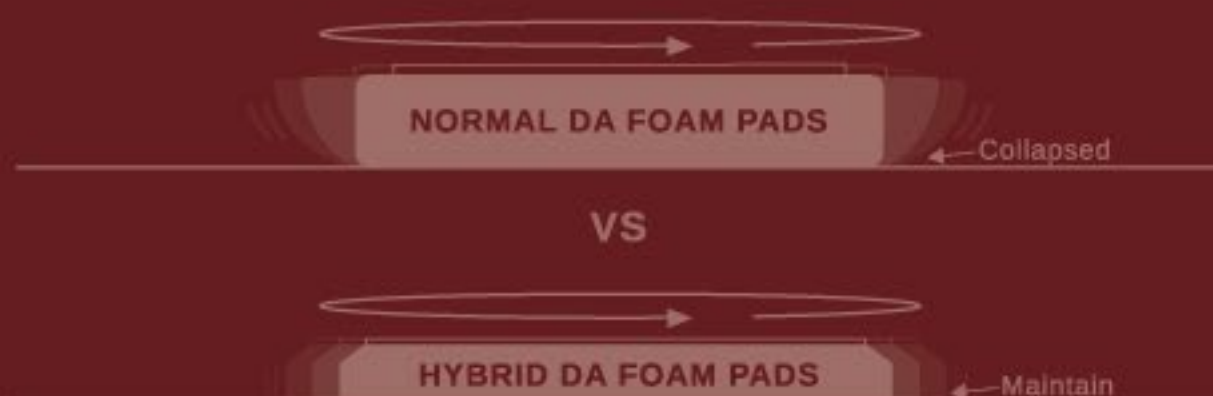

FINISHING FOAM

Soft reticulated foam used of finishing to remove holograms and other light imperfections.

<i>Color</i>	Black
<i>Attachment</i>	Hook & Loop
<i>Cut Level</i>	2
<i>Part No. & Size</i>	C72170 (170mm) C72150 (150mm) C73090 (95mm) C72060 (60mm)

LOW PROFILE HYBRID DA FOAM PADS

These pads are engineered with foams that are more rigid, firm and dense to maintain its structural integrity during buffing (no loss of cutting) with a Dual Action Polisher. Its thin design also allows for smoother handling and buffing feel.

HEAVY CUTTING FORCE DISC

Designed to work with compounds to remove etchings, scratches and swirls.

POLISHING FORCE DISC

Designed to work with polishes or AIOs to remove light swirls and blemishes.

FINISHING FORCE DISC

Designed to work with glazes to remove holograms and also applying waxes or sealants.

MAGIC CLAY CLOTH

The safest and simplest way to create a smooth-as-glass finish is non other than claying. Cars are frequently exposed to pollutants such as industrial fall outs, dust particles, tar spots and many more. Most of these pollutants are not visible to the eyes but when you run your palm across the paintwork, you will find all these pollutants protruding the surface and has already embedded onto the finish.

A Detailing Clay acts as a substance that "pulls out" these embedded contaminants without harming the clear coat. It is a proven tool to remove embedded contaminants without scouring or polishing the surface.

OSREN Magic Clay Cloth is actually Detailing Clay material affixed onto a microfiber towel giving users a much larger working surface as well as flexibility to contour over convex or concave surfaces easily. The microfibre towel also acts to hold water to lubricate the claying process.

Towel Size **40x40cm**

Part No. **MC01**

TOWELS

MICROFIBER BUFFING TOWEL 40x40

OSREN Microfiber Towel 40x40 is a universal detailing towel made of good standard microfibers that is most suitable for buffing off polish residue, wax and even coatings.

<i>Packing Size</i>	1pkt x 3pcs
<i>Available Colors</i>	Blue, Green & Red
<i>Part No. & Size</i>	MF-M06 (40x40cm)

MICROFIBER DRYING TOWEL 30x60

What's more absorbent than microfiber towels? A stretchable microfiber towel!!! OSREN Microfiber Towel 30x60 are stretchable hence able to hold more water making it super water absorbent totally ideal for drying and washing the car!

<i>Packing Size</i>	1pkt x 3pcs
<i>Available Colors</i>	Brown, Gray & Purple
<i>Part No. & Size</i>	MF-T05 (30x60cm)

MICROFIBER WINDOW TOWEL 40x40

There's nothing more important than having clean, crystal clear and smudge free windscreens and windows. Conventional cloths are bad at picking up finger print marks, stains and smoke films, they also leave behind lints that will devastate the finish of your windows. OSREN Blue Window Cloth are made of special lint free microfibers that wipes off finger prints, oily stains/films effortlessly and leaves nothing but a clear crystal finish that will never cease to amaze you.

<i>Packing Size</i>	1pkt x 3pcs
<i>Part No. & Size</i>	MF-B01 (40x40cm)

MICROFIBER DRYING TOWEL (BROWN, GRAY & PURPLE)

Part No. & Size:
MF-B11 (60x180cm)

SUPER STRENGTH INDUSTRIAL HAND GEL

OSREN Super Strength Industrial Hand Gel is OSREN's first developed product that has been sold for two decades and counting. It is formulated to simply remove hi-temperature grease, printing ink and other stubborn stains from your hands while nourishing them with lanolin.

Unlike other cleaning gel, OSREN's Hand Gel contain tons of tiny silicas that scrubs out stains that have inhibit between your nails and groves of your palm. Silicas also scrub away dead skin around the ball of your palm. Not only that, because it's pH Neutral, OSREN Hand Gel will not scorch your hands making it safe on cut wounds also.

OSREN Hand Gel cleans, disinfects, scrubs and moisturizes your hand in one simple application - just scoop a pinch, lather and rinse!

I-SS-6049 (20Kg)

I-SS-6039 (5Kg)

I-SS-6059 (500g)

I-SS-6029 (2.5Kg)

A man with dark hair and a mustache, wearing a white polo shirt with green accents and the 'OSREN' logo, is shown in profile. He is using a brown microfiber cloth to clean the chrome grille of a car. The background is a workshop with various tools and equipment on shelves.

The fundamentals to
become a great detailer
lies in the joy for cleaning!
